There is unusually warm weather this year. It is caused by a weather pattern called El Niño.

Clean feathers help keep birds warm. Put out bird baths to help them out!

Quadrantid Meteor shower most visible

Take a winter tree walk! Try to identify what you see.

Fill your birdfeeders! January-March is the hardest time for birds.

Take a look at a snowflake up close. Hold out a sheet of black paper while it's snowing to get a good look. Are they symmetrical?

There are several different types of snowflake shapes. The shape is determined by the temperature. What kind can you find right now?

Old Christmas trees give good cover for birds.

Nature Journal Calendar

See what's happening in month of January, then take notes about what's happening in your backyard or about what you're doing here in this calendar!
