

M A Y

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
<p>May Day! Celebrate spring!</p>			<p>How are your willow trees doing? Up here in central New York they are one of the earlier trees to come out. This year they came out too early and were caught in a heavy snow.</p>			<p>Find a tree that's in bloom. Does it smell good?</p>
	<p>Are any of your leaves out? Which ones come out first?</p>					
<p>The ants are out. Have you encountered any?</p>		<p>This is the time of year for baby animals! Are there any young animal families in your yard?</p>		<p>When you think about a flower with the name Mayflower, chances are its different than the one I'm thinking of. How Many different flowers have that name?</p>		
					<p>Go out and enjoy this wonderful weather!</p>	
	<p>Look outside. What colors are out there? You can use colored pencils to record that here.</p>		<p>Due, I think, to the odd weather this year our trees have been slowed down. However our undergrowth hasn't. Does spring look normal to you this year?</p>			<p>This is a great time to find occupied bird's nests. What kinds of birds are nesting in your yard?</p>

NATURE JOURNAL CALENDAR

See what's happening in the month of May. then take notes about what's happening in your backyard here in this calendar!
